

# LANGHE DOC NEBBIOLO

Serralunga d'Alba  
**MASSOLINO**

*Langhe DOC Nebbiolo is an immediate, pleasant and smooth expression of the Nebbiolo grape. It is vinified with grapes from several municipalities in the Langhe.*

Massolino's Langhe DOC Nebbiolo is a great way to approach this prestigious grape variety, but also an absolute pleasure for those who already know it well and are looking for a balanced and authentic expression of Nebbiolo.

**Soil composition:** mixed consistency tending towards limestone.

**Vinification and ageing:** a classic wine tied to tradition which undergoes a medium period of fermentation and maceration (approximately 15 days). It ages in large Slavonian oak barrels for over a year. During its whole production process, maximum attention is paid to all the details which convey elegance and smoothness to a young Nebbiolo.

**Notes:** Langhe Nebbiolo DOC is increasing strongly its popularity on all markets thanks to its balance and the appeal of the Nebbiolo grape.

**Appearance:** garnet red with variable intensity depending on the vintage.

**Bouquet:** delicate and pleasant with predominant notes of raspberry and violet; with age it develops very refined and elegant secondary scents.

**Flavour:** an elegant and complete wine with a very charming appeal. We recommend decanting and enjoying it at a temperature of 18-20°C. Ideal throughout a meal but at its best when served with rich, tasty dishes, ranging from fresh-egg pasta with meat or vegetable sauces to grilled or roasted red meats. It is also excellent with soft and delicate blue cheeses.
